Jane Henney, M.D.
Commissioner
Food and Drug Administration (HF-1)
5600 Fishers Lane
Rockville, MD 20857

Dear Dr. Henney:

I am becoming increasingly concerned that the use of antibiotics as animal feed is destroying their effectiveness as medicine, leaving us increasingly exposed to many dreadful diseases that are becoming antibiotic resistant. It is time for the FDA to take a strong stand against the promiscuous use of antibiotics in the animal production industry.

Very truly yours,

Richard J. Weisberg
